"Hyaluronik Asitli"

## PERCENTAGE OF INGREDIENTS

Actives / Product Names (Codes) - Alpha C Vitamin Serum
Cellulose QP 100 MH
Butylene Glycol
3-O-Ethyl Ascorbic Acid
Glycerin

## PRODUCT GLOSSARY

**Cellulose QP 100 MH:** It helps to nourish the skin deeply with its strong moisturizing feature. Helps combat signs of aging and revitalizes dull skin. It helps to soothe the skin and reduce the appearance of redness. It contributes to the appearance of soft and supple skin for a radiant appearance.

**Butylene Glycol:** As a humectants helps to boost the skin's ability to retain moisture from the air. With these properties combined, butylene glycol is an ideal skincare ingredient for stabilizing and improving the spreadability of lotions and creams, while providing a silky smooth, moisturizing texture.

**3-O-Ethyl Ascorbic Acid:** Vitamin C helps to remove the damage caused by external factors on the skin. It tries to make the skin look more lively. Products containing vitamin C support collagen production. It tries to make the skin bright and firm and gives it a beautiful appearance.

**Glycerine:** Glycerin is a very effective moisturizer on the skin. It smoothes the skin, it maintains and nourishes the water balance. Improves skin appearance. Heals and protects the skin.

**PERCENTAGE OF INGREDIENTS**

Actives / Product Names (Codes)-Hyaluronic Acid Serum
Carbomer
Sodium Hyaluronate

**PRODUCT GLOSSARY**

**Carbomer:** Rheology modifier.

**Sodium Hyaluronate:** Sodium Hyaluronate is also known as sodium salt of hyaluronan. Due to its small size, Sodium Hyaluronate is exceptionally penetrative. It can reach deep into the dermis layer of the skin to mix with, attract, and maintain water. It also promotes blood/skin microcirculation, and helps maintain normal metabolism and nutrient absorption.

All of these attributes contribute to the result of decreased wrinkles, fuller youthful appearance, softer and smoother skin.

**PERCENTAGE OF INGREDIENTS**

Actives / Product Names (Codes) - Intensive Retinol Serum
Carbomer
Sodium Hyaluronate
IGN BOTANICAL COMPLEX 121
Niacinamide
Panthenol
UTMF Retinol

Vitalease 7e
Bioxan SF T 50
Glycerin
Paeonia Lactiflora Root Extract
UTMF Retinol

**PRODUCT GLOSSARY**

**Carbomer:** Rheology modifier.

**Carrot Oil:** Carrot oil is an oil that moisturizes and protects the skin. It has skin nourishing properties. People who are afraid of aging and wrinkles on their skin can also use this healing oil. Helping to look young and preventing wrinkles are among the benefits. At the same time, it provides softness to the hair. It strengthens the hair roots, as a result of which it prevents hair loss.

**Sweet Almond Oil:** Almond oil has been used for centuries to treat dry skin conditions, including eczema and psoriasis. Improves acne. The oil's fatty acid content may help dissolve excess oil on the skin, while the retinoids in the oil may reduce the appearance of acne and improve cell turnover. Helps reverse sun damage.

**Shea Butter Ethyl Esters:** It is an eco-friendly, multifunctional shea butter ester offering excellent spreadability and a very light, silky soft skin feel.
